

Abaid Ur Rehman

Machine Learning Engineer

✉ abaidurrehman6790@gmail.com ☎ +92 308 9042467 📍 Faisalabad, Pakistan

Summary

I am a developer with a keen interest in machine learning and software development. I work on building models, preprocessing data, and creating practical applications. I enjoy analyzing problems and implementing efficient solutions. My goal is to develop intelligent and impactful systems.

Education

BS(Artificial Intelligence), <i>NFC Institute of Engineering and Fertilizer Research</i>	2023 – Present Faisalabad
Intermediate (Pre-Engineering), <i>Kips College</i>	2021 – 2023 Faisalabad
Matriculation (Science), <i>Allied School</i>	2019 – 2021 Faisalabad

Skills

Machine Learning

- linear Regression
- Logistic Regression
- Random Forest
- Decision Tree
- SVM | CNN | LSTM

Programming Languages

- Python
- HTML
- CSS
- SQL

Artificial Intelligence

- Deep Learning Basics
- Supervised Learning
- Predictive Modeling

Data Handling & Libraries

- Pandas
- NumPy
- Matplotlib
- Scikit-learn
- Seaborn

Tools & Platforms

- Google Colab
- Kaggle
- GitHub
- VS Code
- Supabase

Languages

- English
- Urdu

Courses

NAVTTT-Artificial Intelligence, <i>Tecphantom</i>	02/2026 – 05/2026 Faisalabad
--	---------------------------------

Projects

Shop Management system, *Complete shop management system for products, billing, and inventory tracking.*

30 + Mini Projects,

Virtual Assistance, Digital Clock , Portfolio website, Data Handling ,Model Training & Testing , Expense Tracker and More

Apple Disease Detection, *ML model to detect diseases in apple using image classification.*
